

DEPLOY IN KUBERNETES CLUSTER

Kubernetes cluster creation

The screenshot displays the IBM Cloud Kubernetes dashboard. The top section shows the cluster creation progress: "Preparing master, workers..." with a status of "Expires in 30 days". A warning message states: "Expires in 30 days: Be sure to back up your data, your cluster will be deleted in 30 days. To access the full capabilities of the service, try out a [standard cluster](#)."

The dashboard includes several status cards:

- Node status:** 1 of 1 Pending
- Add-on status:** 0 of 0 Normal
- Master status:** Unknown
- Ingress status:** Pending

The **Details** section provides the following information:

Cluster ID	Version	Infrastructure	Zones
cdpj34uF0zn1p...	1.24.7_1542	Classic	Milan 01

The bottom section shows the **Namespaces** management interface. The location is set to **Osaka**. A table lists the namespaces:

Name	Resource group	Repository count	Image count	Retention policy
shyamrepo	Default	1	1	Retain all images

The interface also includes a sidebar with navigation options like "Container Registry", "Quick start", "Namespaces", "Repositories", "Images", "Trash", and "Settings".
